

Sheikah Emblem

Design: Muhammad Arif Bin Hamed

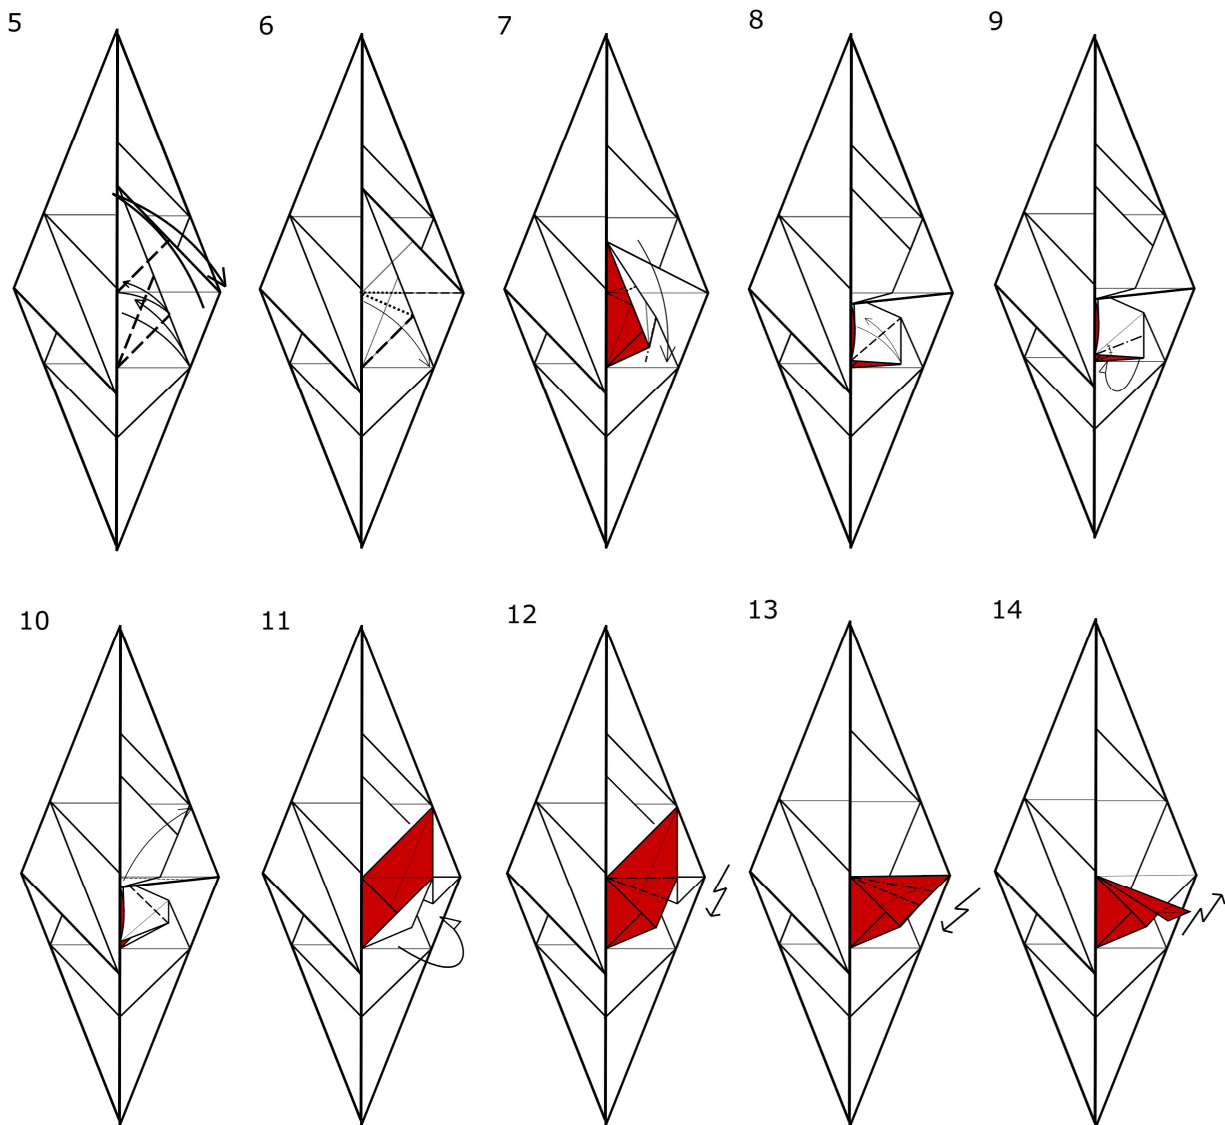

From: Zelda franchise

Date: February 2020

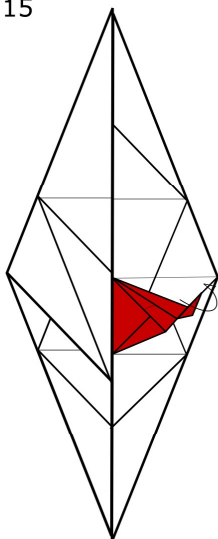

I have always been a Zelda fan since I first played on a Gameboy Advanced as a kid. When I first played Ocarina of Time, I was very intrigued by the Sheikah clan and the things they do. A clan sent back in time to protect the Triforce through the Royal Family. The symbol represents the hunt for truth, the 3 triangles resembles the broken Triforce, the eye shows how they have witnessed the destruction that was brought upon after the destruction of the Triforce, and the tear is symbol of sorrow for their world...

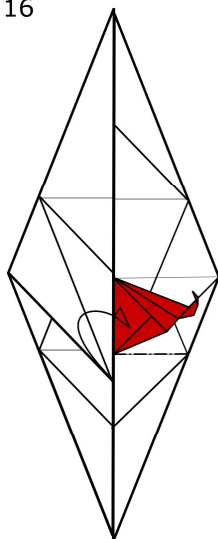

Start with white facing up,
and fold into blints base.
