My name is RAITAMA. I am 30 years old. My hobby is hunting. Only I have been hunting. There was no one else. There was also food. Hunting was also food. I want the energy of meat. There was also blood. There was also heat. Feeling was also heat. I want the energy of excitement of a battle. I would like to eat the strongest meat. And I would like to feel the strongest heat. I would like to eat the strongest meat. And I would like to feel the strongest heat. I am a lone person now.

Inconceivably, they didn't care much about their rankings.

But whenever heroes eager for recognition got wiped out after arriving at the scene early, they will show up by themselves.

### Superalloy Darkshine

C-Class Rank 383  
(lowest) at the time

If this were to continue, it would become difficult to secure those with rare abilities, so a decision was made by the association.

### 重力室

Gravity Room

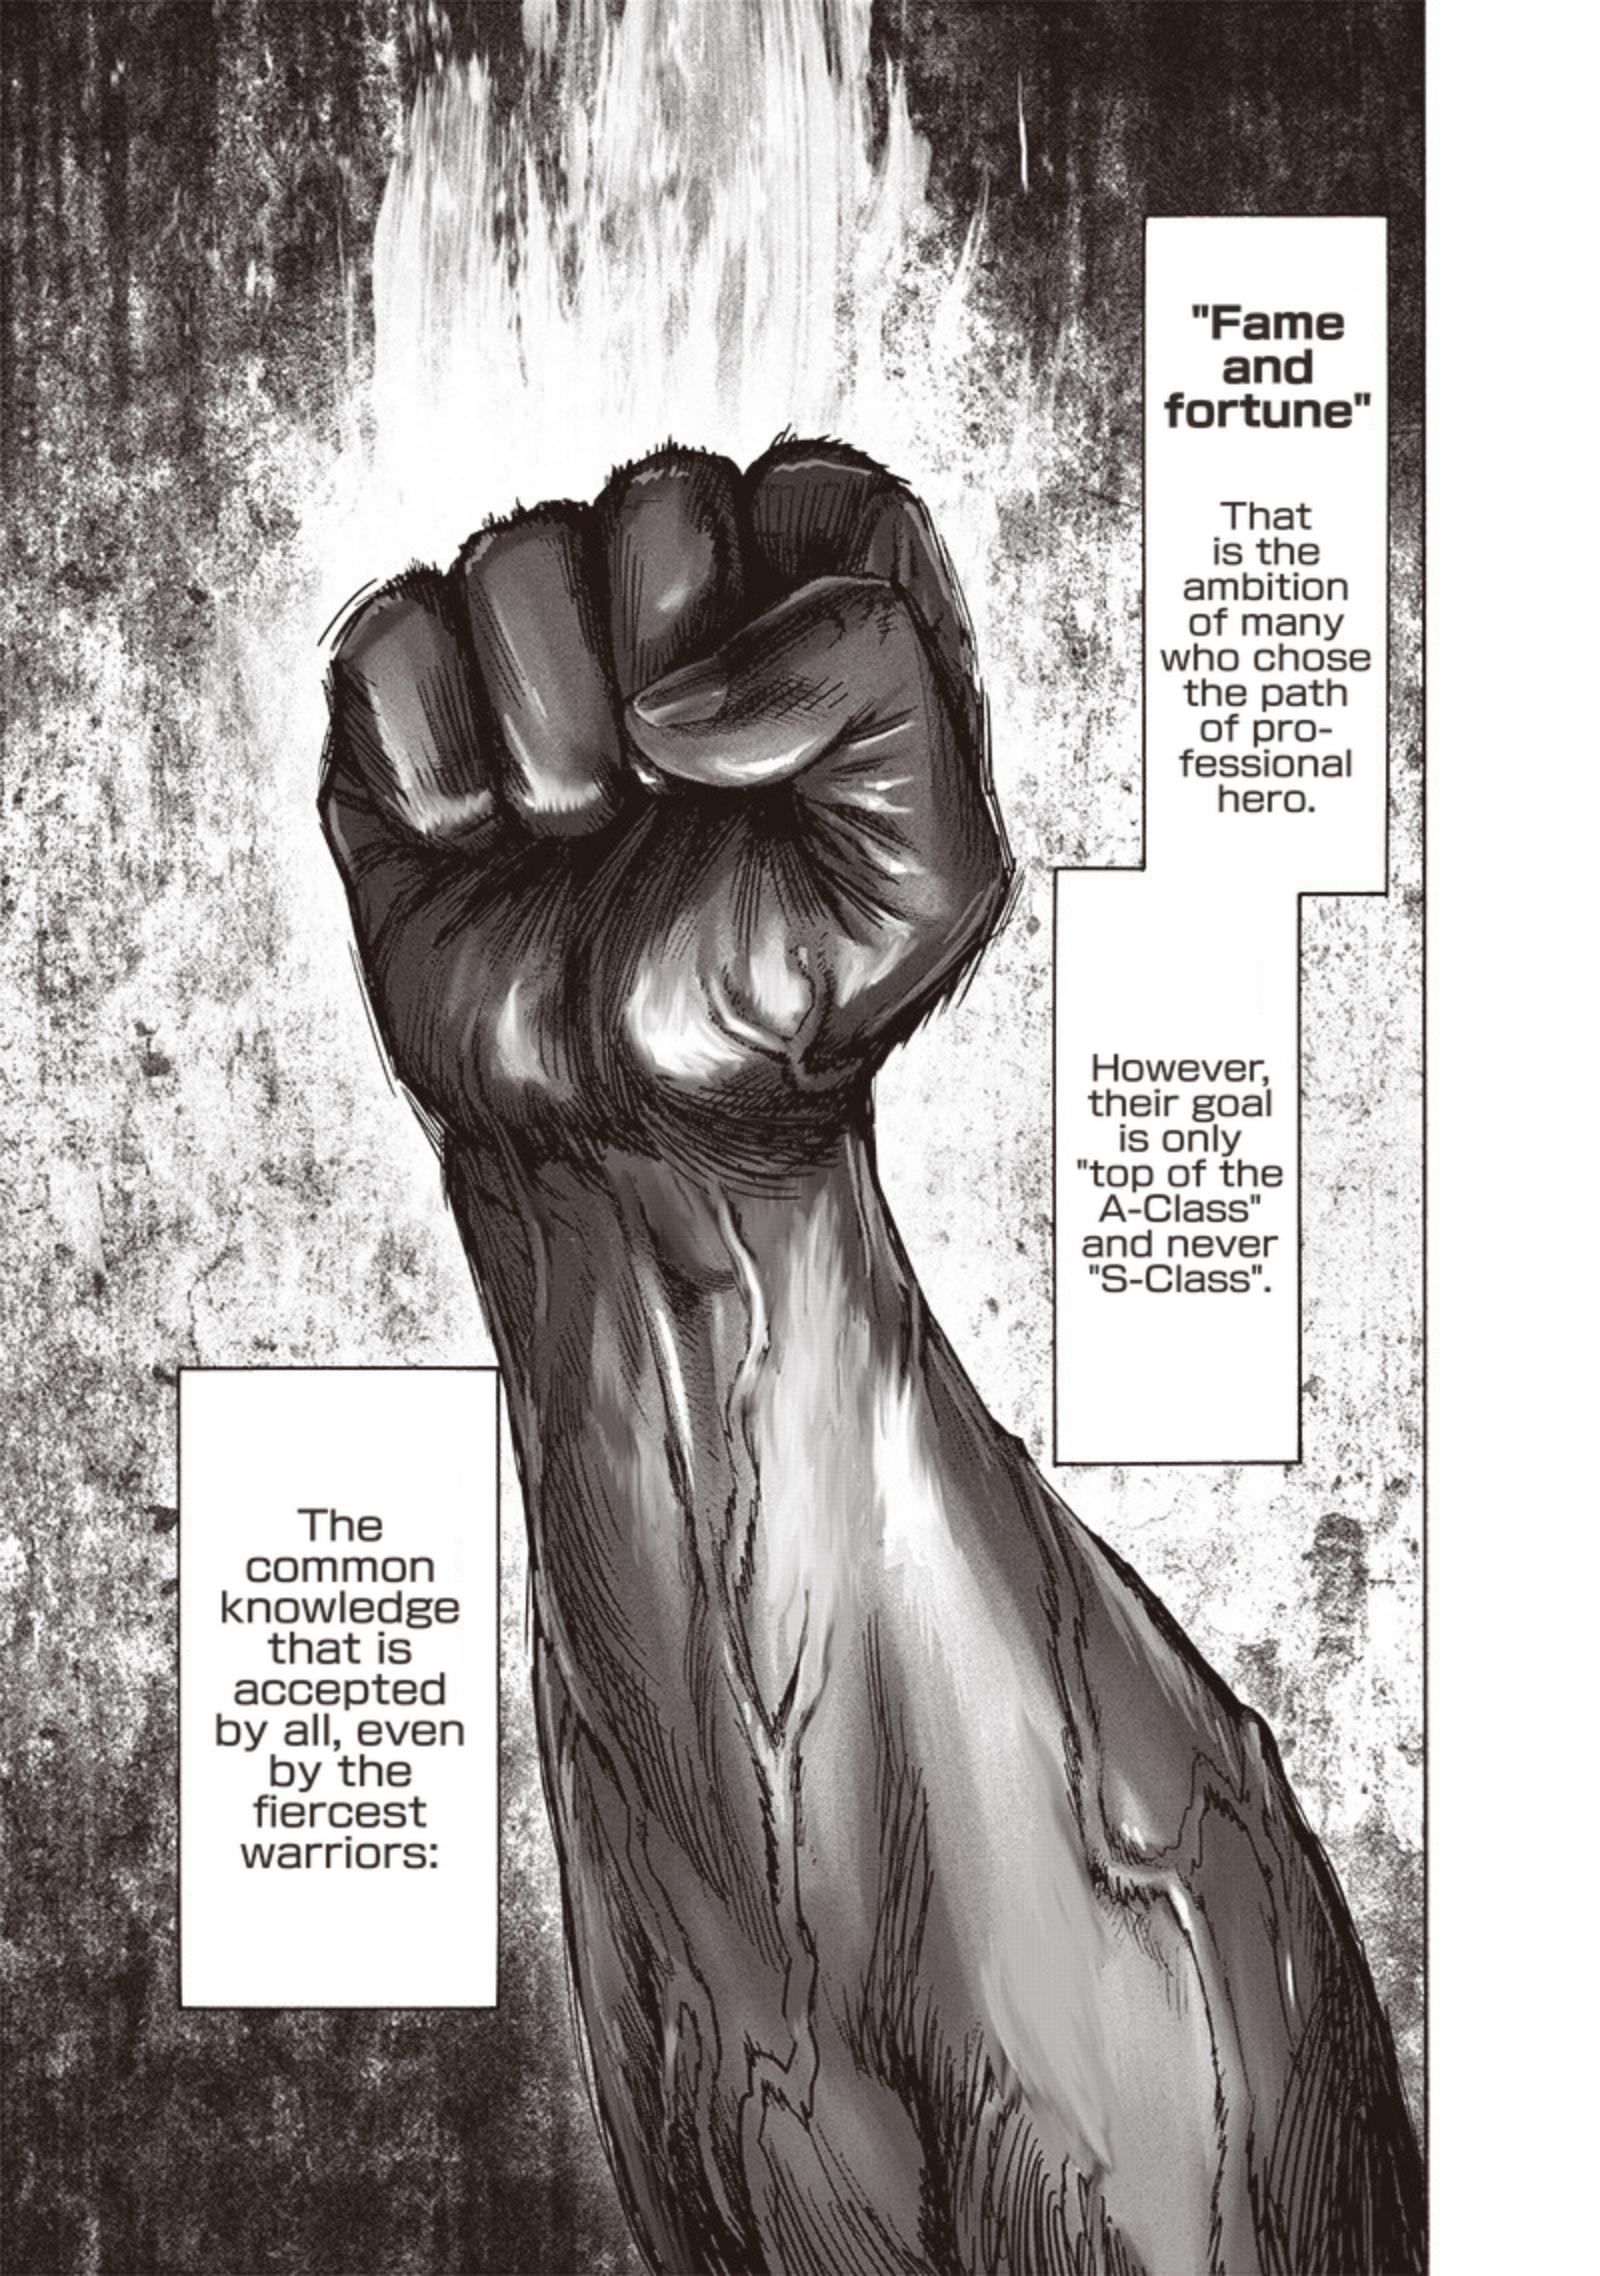

In terms of overall accomplishments, their diligent hero work were constantly being overshadowed by those with resident high ranks.

### Silver Fang

B-Class Rank 77  
at the time

They became known as the S-Class heroes, thus a new ranking was established.

For individual heroes with specialized combat prowess that can rival an entire division of a nation's military, another classification was prepared.

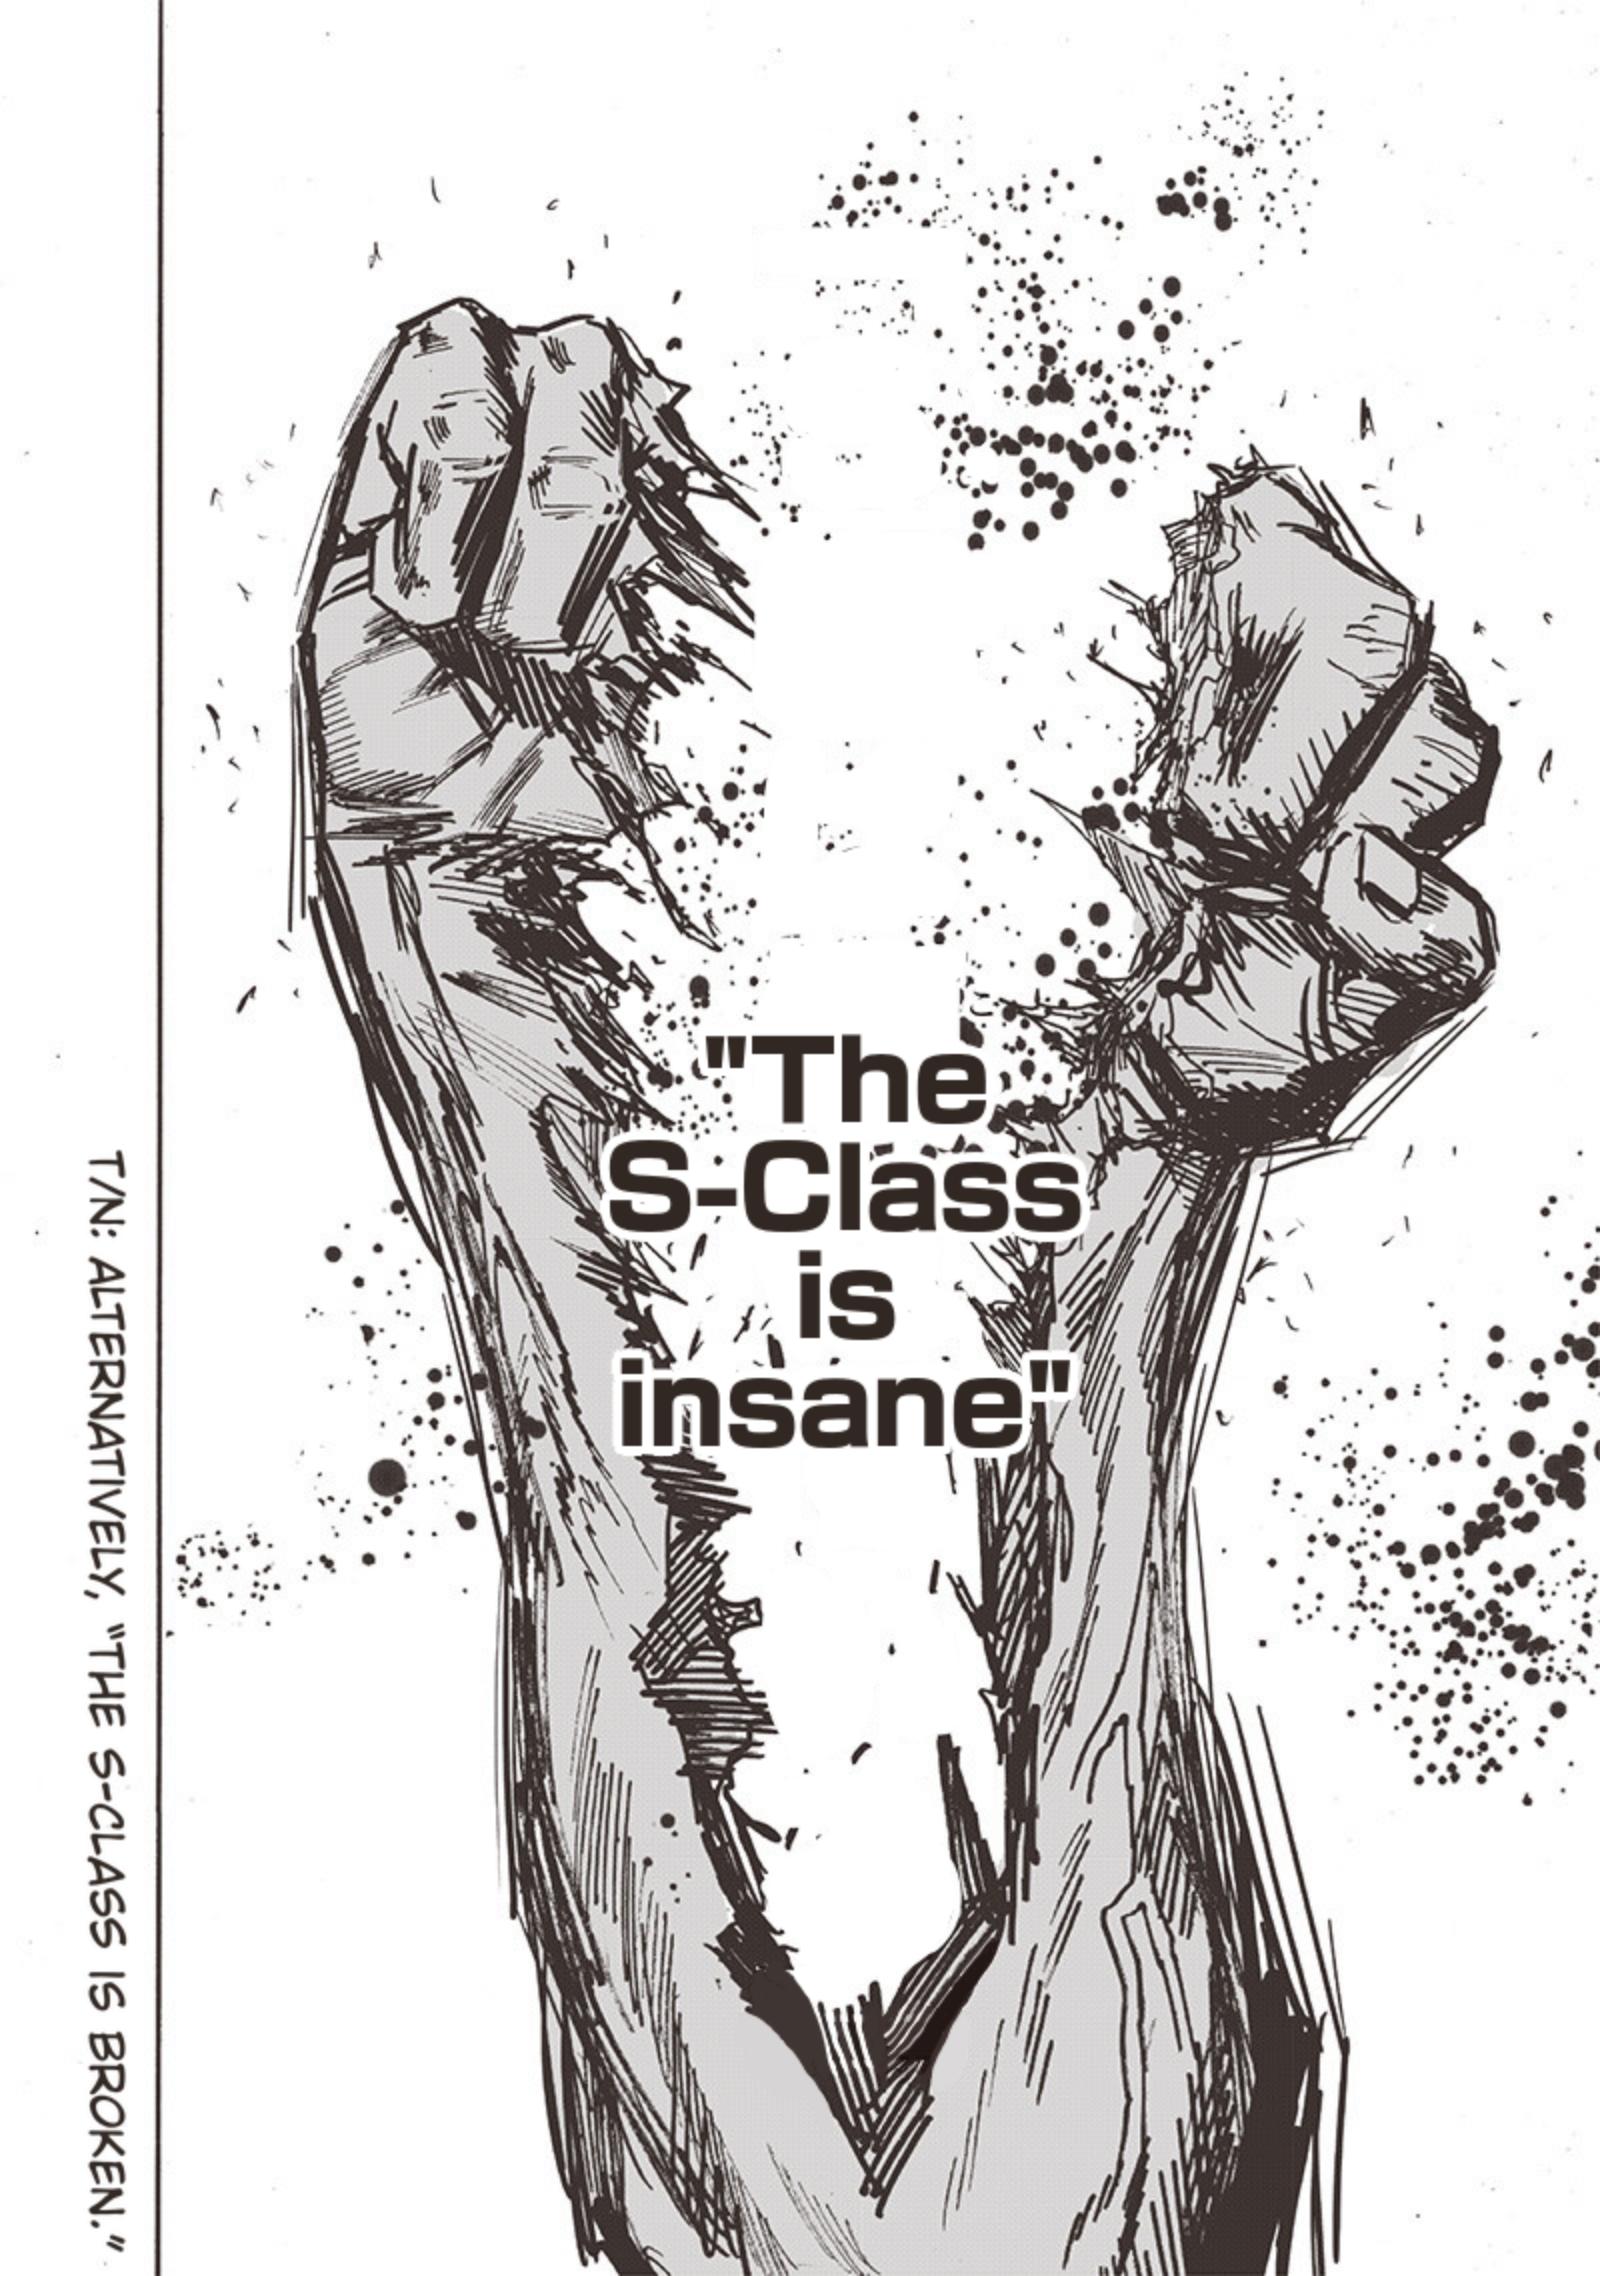

The common knowledge that is accepted by all, even by the fiercest warriors:

### "Fame and fortune"

That is the ambition of many who chose the path of professional hero.

However, their goal is only "top of the A-Class" and never "S-Class".

**"The  
S-Class  
is  
insane"**

T/N: ALTERNATIVELY, "THE S-CLASS IS BROKEN."

And the acknowledgement of the existence of beings that will not waver no matter what stands in their way.

This is an expression of awe from those who once had the goal to become the strongest.

# **Important message for reddit users**

Everyone's favorite company VIZ, who brought us great translations such as "Centichoro"; "King The Ripper"; "Crapola! This game is doody!" and most recently "Black Spermatozoon", has been going around requesting takedowns of manga chapters from various big series's subreddits, including r/OnePunchMan. This means we can't post direct links to the chapters anymore, atleast for some time.

So, in the meantime, we recommend joining the sub's discord where we tag everyone and provide a link as soon as the chapters come out, for both the RAWs and translations.
